⚠️ Should Fix:

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 2 blocking script resources and 5 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

Remove render-blocking JavaScript:

- http://aaclick.com/js/jquery.js

- http://aaclick.com/theme/coffee/sdmenu.js

Optimize CSS Delivery of the following:

- http://aaclick.com/theme/coffee/style.css?v=1.0

Mobile

- http://aaclick.com/theme/coffee/custom.css

- http://aaclick.com/theme/coffee/sdmenu.css

- https://fonts.googleapis.com/css?family=Raleway:400,600

- https://fonts.googleapis.com/css?family=Signika:400,600

🔶 Consider Fixing:

Optimize images

Properly formatting and compressing images can save many bytes of data.

Optimize the following images to reduce their size by 8KiB (4% reduction).

- Losslessly compressing http://aaclick.com/files/banners/b-1_ezk3cv4.jpg could save 4.1KiB (12% reduction).

- Losslessly compressing http://aaclick.com/theme/coffee/custom-images/banner-bg.jpg could save 1.8KiB (1% reduction).

- Losslessly compressing http://s10.flagcounter.com/count/3NX6/bg_5A5046/txt_ffffff/border_5A5046/columns_8/maxflags_32/viewers_0/labels_0/pageviews_1/flags_0/ could save 1.5KiB (9% reduction).

- Losslessly compressing http://aaclick.com/theme/coffee/custom-images/home-img1.png could save 537B (28% reduction).

`73 / 100` User Experience

Mobile

❗ Should Fix:

Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Contact Us and 5 others render only 5 pixels tall (15 CSS pixels) final.

- Register renders only 5 pixels tall (15 CSS pixels) final.

- Member Login renders only 8 pixels tall (21 CSS pixels) final.

- Login to your…to earn points renders only 5 pixels tall (14 CSS pixels) final.

- Remember me renders only 4 pixels tall (13 CSS pixels) final.

- You forgot your password? renders only 6 pixels tall (18 CSS pixels) final.

- registered members and 1 others render only 8 pixels tall (22 CSS pixels) final.

- 82 renders only 8 pixels tall (22 CSS pixels) final.

- Free Website Traffic and 2 others render only 7 pixels tall (20 CSS pixels) final.

- Free website t…and websites! and 2 others render only 4 pixels tall (13 CSS pixels) final.

- Our exchange s…l media pages. renders only 5 pixels tall (14 CSS pixels) final.

- We will never…work accounts. and 2 others render only 6 pixels tall (16 CSS pixels) final.

Mobile

🔶 Consider Fixing:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. Size the page content to the viewport to provide a better user experience.

The page content is 1,000 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element Register falls outside the viewport.

- The element <div class="home-top"></div> falls outside the viewport.

- The element Signup falls outside the viewport.

- The element <div class="exchange_container">Our exchange s...t our website?</div> falls outside the viewport.

- The element <div class="exchanges">293 total e...es 0 today</div> falls outside the viewport.

- The element <h3 class="list-title">A few common q...r mind at ease</h3> falls outside the viewport.

- The element We do not sell...website hits. falls outside the viewport.

- The element We never post...your accounts. falls outside the viewport.

- The element We will never...work accounts. falls outside the viewport.

- The element <div class="footer_banners"></div> falls outside the viewport.

- The element <select>English</select> falls outside the viewport.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider making these tap targets larger to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target Blog and 2 others are close to other tap targets final.

- The tap target <input type="text" name="login" class="l_form-side"> is close to 1 other tap targets final.

- The tap target <input type="password" name="pass" class="l_form-side"> is close to 1 other tap targets final.

- The tap target <input type="checkbox" name="remember"> is close to 2 other tap targets final.

- The tap target <input type="submit" name="connect" class="gbut"> is close to 1 other tap targets final.

- The tap target You forgot your password? is close to 1 other tap targets final.

- The tap target FAQ and 2 others are close to other tap targets final.
